

Where Is Your Stuff From: The Results

We will be creating a geochart to show the main sources

1. In Google Docs, select “create spreadsheet”
2. In the first column, enter the name of the country from the provided list
3. In the second column, enter the number of things from that country
4. Select “insert” and “chart”
5. Under “chart editor”, select map and select the top map choice
6. You can then change your colors
7. Be sure to share your map with me (endersk@myhalifax.us)
